ARTE LIVING DESIGN STUDIO

PHILOSOPHY

Provide all-inclusive services from design to home styling, so clients enjoy complete peace of mind throughout the process

SIMPLE AND CLEVER

The firm's signature combination of modern looks and practicality is illustrated in this 1,710sqf three-bedroom maisonette, where a young couple and their toddler live. The homeowners found Arte Living Design Studio through a *Home & Decor* article, and were keen on its functional, streamlined style.

The design team created a kid's play area with a platform-cum-storage-area. They also made a study niche for the husband out of an odd space. The homeowners were delighted with these solutions, as with the concealed storage room below the stairs.

In line with the "simple and modern" look the couple wanted, the designers whitewashed the entire apartment, and stuck to a black-and-white theme for the furnishings. In the living room, a graphic floral black-and-white feature wall gives immediate visual interest, and is complemented by a customised white gloss laminated TV console. To match the rest of the new decor, the clunky old stair rail was replaced with a sleek stainless steel one, and the wooden steps stained a dark, almost-black hue. ▶

This monochromatic living room has ample space for the homeowners to play with their toddler. opposite
The chrome stair rail brings out the stainless steel details of the dining room furniture.

WE TAKE PRIDE IN INCORPORATING AFFORDABLE DESIGN SOLUTIONS CENTRED ON THE LIFESTYLE NEEDS OF THE HOMEOWNERS.

MODERN INNOVATION

The businessman client of this 1,500sqf three-bedroom condominium at The Equatorial on Stevens Road wanted a modern Oriental yet classic look for his family home. To cater to his tastes, the design team proposed a rich palette of earthy browns and creams, while maintaining clean, contemporary lines in the furnishings.

In the cosy dining room, a feature wall clad entirely in brown-tinted mirrors adds depth and dimension to the space, while adjacent flushed veneer cabinets provide plenty of practical storage. The designers also sourced for a calligraphy artwork to lend a traditional, Oriental vibe to the home and add character to an empty wall leading to the living room.

In the living room, the eye is drawn to a striking black marble TV console feature that glows under soft downlights. Balanced with gauzy organza drapes and walls lined in pale gold wallpaper, the room feels well-appointed yet cosy. ■■
